ISP Newsletter

VOIP:

- Homeowners beware there have been problems with alarm panels sending signals through Voice over Internet Protocol. Please test your system before and after installation.

We recommend testing your alarm system. Keeping a land line or upgrading your system to a cell or internet communicator.

- Call ISP and ask for a sales representative to find out more.

New Phone:

- New Cell Phone Number or email address? Call ISP to update your call list. 925-277-9777

Total Connect:

- Access your security system from the touch of your hand using your iPhone, iPod Touch, Blackberry and Android powered phones.
- Receive alerts from your Alarm System when it is armed or disarmed. The messages can be sent to you two ways, Email or SMS messages.

Visit our Website or Call Today. 925-277-9777
