For Basic Phone and TV Only

Rough-In Cabinet

Panel Assembly

Mounting Frame

Passive Coax Module

Phone Module (Maximum 9 Locations)

Designer Cover w Trim

The tecLAN400 basic panel provides 9 telephone connections with a 4 line capacity, 4 TV coax connections and 4 internal coax connections. The 400 series provides a passive coax cable distribution and includes a cable signal combiner with a built in high pass filter to eliminate interference on cable channels. Upgrades are available for more TV locations.

4 Port tech plates will be trimmed in Master bedroom and Family Room. 2 Port plates will be installed in specified Locations. Coax spares are run to the attic for future use. (Satellite, Cameras, etc.)
